Plan to Attend the 2019 NDT of Composites

April 30 — May 2, 2019 | Motif Seattle | Seattle, WA
Why you should attend

This 2019 NDT of Composites conference is “looking ahead toward a growing industry” because the use of composite materials is continually expanding across many sectors. This event will provide the opportunity for “additive innovation” through engaging presentations, innovative exhibitors, and networking with peers from not only those within your industry but those outside of it as well!

This conference will feature presentations on existing, new and developing methods of materials and fabrication techniques including advances in composite NDT technology, new product forms, and In-process NDT. Topics will include:

- NDT of composites used in commercial, military, marine, space and launch vehicle applications
- NDE for new composite products
- Applications in aerospace, automotive, defense, medical and many other fields
- NDT methods including ultrasonic, guided wave, infrared, laser, radiography and others

Make plans to attend the 2019 NDT of Composites April 30th – May 2nd in downtown Seattle!
